

MVP is where technology meets business.

MVP Advisory Group

MVP Advisory Group provides the expertise needed to guide insurance carriers along the path of transformation and growth. We are experts in the business and technology of insurance, combining world-class tools and methodologies with a flexible engagement approach to ensure the best solution for each client.

Clearing the Path

MVP partners have successfully served in senior management and executive roles for insurance, technology and consulting companies, including positions such as CIO, CFO, COO and President. Our partners are experts at assessing and aligning IT and business strategy.

MVP works with insurers to plan and execute sustainable solutions, not just projects, and we remain with you on the journey from planning to successful execution.

The MVP Difference

- **Deep industry experience.** MVP practitioners average 26 years of experience leading and supporting programs and projects for insurance carriers, technology providers and consulting firms.
- **Proven leadership.** We have successfully led integration and transformation projects for insurers of all sizes. Our leadership team members have served as executives for insurance carriers and technology and consulting firms.
- **The results you need.** MVP's business model utilizes proven tools and methodologies, yet is tailorable to the specific needs, goals and budget of each insurer. Our model ensures alignment between business and IT strategy.
